Storage and Handling:

- Inteplast mouldings should be stored off the ground, fully supported on a flat surface.
- Never place PVC mouldings directly on blacktop or other surfaces that can develop excessive heat.
- Store in a well ventilated area.
- Keep mouldings covered and protected while warehousing
- Directional arrows on each weatherstrip carton indicating flap direction.
- Inteplast staples a flyer on each skid of 0238 stating to store cartons vertically.

OEM Special Colors:
