

INTEPLAST DECK

Variegated / Gray Walnut

The look of wood without the worry.

Solid Color Collection

Durable Design

Start any outdoor living space with a great finish. The Solid Color Collection is designed to emulate painted hardwood without the high maintenance. There's no need for seasonal sanding, painting, or staining... just a little light cleaning will do the trick.

Every Solid Color deck board has reversible oak and cedar woodgrain finishes that are offered in warm to rich color choices. This enables creative designs and options from the same board. The flexibility, durability, and low maintenance makes this a *solid* choice.

Sahara field / Sage step

Gray

Acorn field / Espresso accent

SOLID Colors | Oak & Cedar Grains

| Acorn Oak | Sage Oak | Sahara Oak | Sandalwood Oak | Gray Oak | Espresso Oak |
|--------------|-------------|---------------|-------------------|-------------|-----------------|
| | | | | | |
| | | | | | |
| Cedar | Cedar | Cedar | Cedar | Cedar | Cedar |

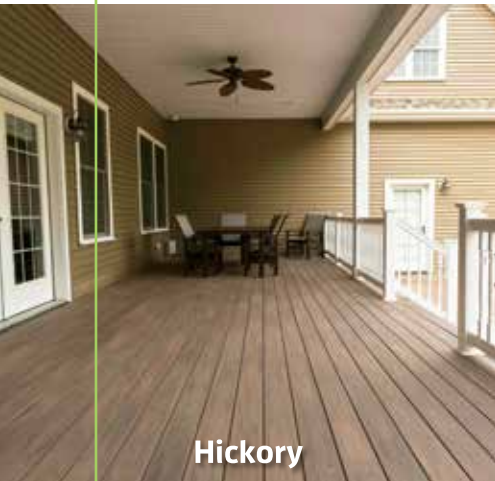

Note: Colors may vary due to printing, please see actual product before making a selection.

Variegated Color Collection

Proven Performance

Transform any outdoor living space with a deep, rich colored deck. The Variegated Color Collection shows off the distinctive beauty of exotic hardwood with multi-toned streaking and every deck board has a durable, reversible subtle teak woodgrain finish.

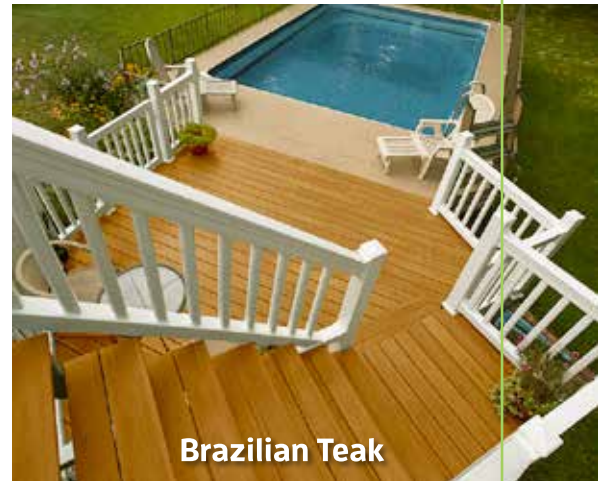

Our technology enables your deck to retain its color and charm against outside elements. Costly, continual upkeep will be a thing of the past. Don't sacrifice your time, energy, or money on your deck when you should be relaxing and enjoying your life – outdoors.
