

# Inteplast Deck, Dock, & Porch

Engineered to be durable, lightweight, and moisture resistant. No special tools are required to install our boards. We aim to give you the working characteristics of traditional lumber minus the maintenance.

# Inteplast Deck Variegated Colors

**Cover** Burnished Maple **1** Gray Walnut

Our technology enables your deck to retain its color and charm against outside elements. Costly, continual upkeep will be a thing of the past. Don't sacrifice your time, energy, or money on your deck when you should be relaxing and enjoying your life outdoors.

Transform any outdoor living space with a deep, rich colored deck. The Variegated Color Collection shows off the distinctive beauty of exotic hardwood with multi-toned streaking and every deck board having a durable, reversible subtle teak woodgrain finish.

① Warm Walnut ② Brazilian Teak

# Inteplast Deck & Dock Solid Colors

Start the first step of any outdoor living space with a great finish that will last. Inteplast Solid Color Deck is designed to emulate painted hardwood with reversible woodgrains, so you won't need to worry about the high maintenance that comes with traditional wood decks. The flexibility, durability, and performance to last beautifully through the seasons makes this a solid choice.

Inteplast Dock offers unmatched performance, durability, and low maintenance. It is the preferred solution for docks and other structures built by the water. Featuring the capability of a 24" joist span, your dock is not only easy to install but easy to customize and configure. Constructed with 100% solid PVC backings for optimal strength and moisture resistance, your dock is designed to withstand harsh weather, is rot-resistant, and needs no painting. Without the need to constantly maintain your dock you get to spend more time on the water.

① Acorn-Deck ② Slate-Dock

# Inteplast Porch Solid Colors

Our Porch's unmatched outer capstock layer is engineered for beauty and durability. It is reversible with Oak and Cedar grains, which gives you more options to create that great first step into your home.

Give your home an iconic look with Inteplast Porch. Bring traditional charm, elegance and style to your doorstep. We aim to provide the ultimate protection against outdoor elements with an advanced PVC technology.

## Test & Code Compliance

ICC ( International Construction Council ) Evaluation Service Report #ESR 2824

### Note:

1. Inteplast's Variegated Colors provide the ultimate look of natural wood appearance. Just like natural wood, it may exhibit a slight variation of color and grain from board to board.
2. Colors may vary due to printing, please see actual product before making a selection.
3. Visit our website for updated warranties, installation guidelines, and clean & care guidelines: [www.inteplastbuild.com/literature.html](http://www.inteplastbuild.com/literature.html)
